

EVALUATION

The process by which the teacher assesses the learners' knowledge, skills and attitudes, based on criteria related to educational goals.

Types of Evaluation: Summative, Formative

KEY COMPONENTS & TEACHING BEHAVIORS

OBSERVATION OF LEARNERS:

- observe learner's performance

QUESTIONING:

Forms of questions (open-ended, closed-ended)
Wait time

- ask questions to assess knowledge
 - Types of knowledge:
 - fundamental* (basic)
 - applied* (to case/clinical scenario/patient)
 - Levels of cognition:
 - recall* (memorization/retrieval)
 - analysis/synthesis* (higher processing)
- ask questions to assess skills (simple or complex)
- ask questions to assess attitudes

ASSESSING SELF-ASSESSMENT:

- ask learner to self-assess
